

Brief CV

Name	Huang Junge	Gender	male	
Title (Pro./Dr.)	Professor/ Dr.	Country	china	
University/Department	Shanghai institute of technology/College of urban construction and safety engineering			
Research Area	Tunnel prediction, safety testing of Civil engineering			
<p>From 2001 to 2004, worked in the School of Resources and Environmental Engineering of Guilin University of Technology. From 2004 to 2006, postdoctor of Tongji University. Since 2006, has been a professor of civil engineering and safety engineering of Shanghai institute of Technology. the head of the College of Civil Engineering of Kashgar University from 2014 to 2017. More than 40 papers have been published, of which more than 10 have been retrieved by SCI and EI, more than 10 have applied for patents, and have won the second prize for scientific and technological progress in Guangxi, presiding over more than 20 research projects at the national and provincial and ministerial levels. ,</p> <p>Brief introduction of research experience:</p> <ol style="list-style-type: none"> 1. Tunnel prediction on resistivity; safety testing and monitoring of Tunnel. 2. Safety testing and monitoring of Concrete in salinization soil and groundwater based on geophysics 3. Environmental testing, such as testing and monitoring of landfill leaks 4. Modelling of Environmental testing and monitoring
